- 7 Yes, I do think this is true. Without fear, for example, we may choose to do things that are dangerous. Anger is also important, because it can help us realize when something is wrong and needs to change, such as someone taking advantage of us./No, I don't think this is true. Negative emotions, such as fear, can get in the way of us achieving our goals. Anger should also be avoided since it can cause us to hurt other people without a good reason. (*any reasonable answer*)

17 Yes, I would take a child to go see *Inside Out*. I believe that it contains important messages for children, and teaches them about their feelings. In addition, it tells kids that it is all right to feel angry or sad sometimes./No, I would not take a child to go see it. Although it sounds like a funny and entertaining film, I believe that the message is too difficult for a child to understand. The darker side of the film may also upset him/her. (*any reasonable answer*)
