You like reading horror stories. You have found a book review on a famous horror story. Read the book review.

Text 1 Book review

A review of
Mary Shelley's

Frankenstein

1 Victor Frankenstein is a scientist in the 18th century. He wants to find the secret of life. He makes a scary monster from body parts he steals from graves. He brings it to life. However, when he sees the horrible monster, the terrified scientist runs away. The monster

5 escapes and tries to kill the scientist and his family.

2 In *Frankenstein*, you hear the story from both the monster's and scientist's points of view. I think the monster acted the way it did because it felt lonely. If I were the monster, I would feel the same way.

3 I recommend this novel because it is scary and well written.

10 I used to avoid reading classic novels like *Frankenstein* because of the old-fashioned language. However, I got used to this very quickly because the story was so interesting!

Simplified reading and comprehension

Unit 7

Name: _____ () Class: _____ Date: _____

Comprehension 1 Your friend is asking you about the book review on 'Frankenstein'. Read the book review and answer his questions. Fill in the blank or choose the best answer and blacken the circle.

Complete the note sheet.
