Text 1 Magazine article

Hope for the future

① Everyone ought to see these amazing inventions by teenagers!

② 30-second phone charger

Eesha Khare was only 18 when she
5 invented a tool that charges a
mobile phone in less than 30
seconds. While a regular battery
stops working after 1,000 charges,
you can use this tool to charge your
10 phone 10,000 times!

③ Algae Mobile

When he was 17, Param Jaggi
invented the Algae Mobile. It uses
algae to turn carbon dioxide into
15 clean air. Jaggi says that he keeps a
sketchbook at home. Who knows
when he will come up with another
great invention?

④ Medical rucksack

20 Kylie Simonds had cancer when she was eight. During
her treatment, she had difficulty walking around with a
heavy drip stand. This experience led her to invent a
light and portable rucksack. She thought that cancer
patients should be able to move around easily while
25 receiving medicine. She is raising funds to bring this
invention to other children with cancer.
