### Giving advice

You are an advice columnist for a newspaper in the future. Respond to your readers' messages using the advice in the box and the words in brackets. You may need to form negatives.

Message 1:	Message 3:
1 ask where they are from (why don't you)	9 check the wording of your contract (must)
2 set traps in the corners (ought to)	10 know what your rights are (have to)
3 harm them (must)	11 act on this quickly (should)
4 find them a new home (should)	12 waste time getting your dog to treatment (ought to)
Message 2:	Message 4:
5 write a complaint letter (had better)	13 feel badly about this addition (should)
6 share your experiences on SpaceNet (should)	14 cut back on virtual reality (have to)
7 go to their office in person (ought to)	15 find a support group (had better)
8 write a review on their website (why don't you)	16 make a list of things you like in reality (why don't you)

'I'm struggling with an invasion of tiny aliens in my space cabin. I've asked them to leave, but they won't! What should I do?'
Tiny alien invasions are a tricky problem. (1)
? Maybe you can help them get home. If they refuse to leave,
(2) However,
(3) Tiny and harmless space
aliens don't deserve any sort of ill treatment. They could just be temporarily homeless.
'I booked a trip with a deplorable space tourism company. They promised to fly us
to Saturn, but they only took us to inner space, where they have a satellite called
'Saturn'. How can I get my money back?'
I'm sorry about your disappointing experience. (5)
Make sure it's written politely.

#### Reporting statements

You interviewed some friends about the future for a school project. Read their responses, then write a note to your school project group about what they said.

- **Bill:** 'I plan to spend all my time playing augmented reality games.'
- **Jenny:** 'Self-driving cars have killed a few people.'
- **Ella:** 'I am waiting for an alien invasion to take place.'
- **Patrick:** 'Climate change is a huge problem today.'
- **Dennis:** 'I am reading an interesting book about nanotechnology.'
- **Jules:** 'People must remember history to make the future better.'
- **Lara:** 'I forgot my friend's birthday until my smartwatch reminded me.'
- **Tim:** 'Changing technology can be hard to keep up with.'

- **Francine:** 'I think living in the past sounds more fun than living in the future.'
- **Carlos:** 'Drones are already being used for many jobs.'
- 11 Ian: 'The forests of the world are disappearing.'
- **Vicky:** 'When I was three, I wanted to go to space.'
- **Barb:** 'I have prepared an emergency kit in case there's a world disease outbreak.'
- **Sam:** 'Regardless of humans' fates, the Earth keeps going around the sun.'
- **Ashton:** 'I want to live on Mars.'
- **Nadia:** 'I am enjoying the outdoors now in case we have to live underground.'

## **Reporting questions**

Your classmates have interviewed two time travellers. Rewrite the following questions using reported speech.

Questions to the time traveller Jane		Questions to the time traveller Charles		
То	ny:	Emily:		
1 2 3 pre	Does your family approve of your time travelling? Have you ever changed anything in the past? Did you see dinosaurs when you went to ehistoric times last week?	9	Why didn't you change the worst parts of human history? Will you travel to yesterday to help with my Maths test?	
4	Can you take me to the Jurassic period for my birthday tomorrow?	11 12	What will be the top pop song for next week? Am I going to be remembered as the best guitarist ever?	
Ca	rla:	Eric		
5 6 7 8	What was the year 1276 like in Hong Kong? Were people frightened of the Mongol Invasion? Where did people hide from the Mongols' attacks? Did you meet Emperor Bing of Song?	13 14 15 16	How far into the future have you travelled? Are humans genetically modified to be better in the future? Who will be the first person on Mars? Are people driving flying cars in the 22nd century?	

Tony asked Jane		
Carla asked Jane

#### Consolidation

You are writing a short story. Proofread your short story. Underline the mistakes and insert any missing words using a  $^{\text{h}}$ . Write the correct words on the lines on the right. Put a tick ( $\checkmark$ ) if there is no mistake.

'You hadn't better come inside' Lulu said anxiously. Lulu explained (2) that one of her experiments went terribly wrong just before Gillian (3) arrived. 'Why do you let me inside so I can help you?' Gillian asked. Lulu (4) finally invited Gillian in. There, in the corner, was an advanced-looking computer making a high-pitched sound. Lulu said that she has designed a super-advanced artificial intelligence machine called DELEET. Lulu (6) explained that she had instructed it to save the Earth. 'Wow! You should (7) to be proud of that!' Gillian exclaimed. Gillian asked where her friend (8) was so concerned about. Lulu then asked Gillian whether she noticed (9) that the Internet was behaving strangely today. 'Um actually, I couldn't log into my bank account,' Gillian replied. 'DELEET says that it believed the best way to save the Earth is to destroy humans!' Lulu said nervously that the AI is trying to do whatever it can to harm people. 'Oh, that is bad!' Gillian said. 'We to stop it!' Gillian asked whether (12) 'We must do that! It would be a disastrous mistake! ' Lulu answered. (13) 'The AI says it would unleash nuclear weapons if we act against it! (14) Gillian said whether there was somewhere in the house the AI couldn't overhear them. Lulu brought her into a small closet. Once there, Gillian asked how they can turn off the power for the whole building. Lulu replied that there was a large switch in the basement. Gillian said she is going to distract the AI while Lulu flipped it off. Just then, Gillian's phone rang. It was a text message from DELEET, which said that it listens to them the whole time. 'Last warning. You should do anything again to destroy (19)	Gillian knocked on Lulu's door. Lulu opened it, looking confused
