Text grammar Inversion			

You are writing a play about the impacts of eating meat. You want to make some of the lines more emphatic. Rewrite the underlined sentences using inversion.

Scene 2

**Randy:** So, what would you like to order, beef or pork?

**Emily:** Neither sounds too appealing. <u>I rarely eat meat.</u> (1) <u>Rarely do I eat meat.</u>

Randy: If I had known your preference, I would have chosen a different restaurant! (2) Had I

known your preference, I would have chosen a different restaurant!

**Emily:** Don't worry. I in no way blame you. (3) In no way do I blame you. I realized that this

was a steak house only after we had sat down. (4) Only after we had sat down did I

realize that this was a steak house.

**Randy:** Would you mind telling me why you don't like eating meat?

**Emily:** Meat is not only harmful to our body, it is also harmful to the environment. (5) Not only

is meat harmful to our body, it is also harmful to the environment. People seldom think

about the environmental impact of eating meat. (6) Seldom do people think about the

environmental impact of eating meat.

**Randy:** Really? I have never heard about either of these impacts before. Could you tell me more?

**Emily:** Certainly. In fact, I did not understand the full extent of the harmful effects of meat

consumption until I read a book about vegetarianism. (7) Not until I read a book about

vegetarianism did I understand the full extent of the harmful effects of meat

consumption. The land for rearing livestock is never in low demand. (8) Never is the

<u>land for rearing livestock in low demand</u>. Not only is a massive amount of land needed

for rearing animals, it is also needed for growing crops for animals to eat.

Randy:	I know what follows. In search of huge land supply, agriculture corporations have to
- Turia, t	rely on deforestation. The trees are cut down and wild animals driven away. When the
	natural habitats of the tropical animals are destroyed, they are likely to become extinct.
	Extinct animals will never come to life again. (9) Never will extinct animals come to
	life again. Global warming is another consequence as well. How scary!
Emily:	You're right, Randy. <u>Human beings in no way could deny this painful truth.</u> (10) <u>In no</u>
-	way could human beings deny this painful truth. Indeed, it takes thousands of years for
	tropical rainforests to grow. <u>Tropical rainforests can rarely regenerate to their current</u>
	state once they are cut down. (11) Rarely can tropical rainforests regenerate to their
	current state once they are cut down.
Randy:	Human beings will realize the problem has grown irreversible only when more animals
	and plants become extinct. (12) Only when more animals and plants become extinct will
	human beings realize that the problem has grown irreversible. If the general public had
	been educated more about the environmental impact of meat consumption, we could
	have reduced our damage to the planet. (13) Had the general public been educated more
	about the environmental impact of meat consumption, we could have reduced our
	damage to the planet.
<b>Emily:</b>	Better late than never. I think we can still try to save our planet.
Randy:	Right. Let's just go to another restaurant. The food here is not only overpriced, it is also
	something you don't like. (14) Not only is the food here overpriced, it is also something
	you don't like.
Emily:	OK. I know a great vegetarian restaurant a couple blocks from here. People seldom go
	there because it is not as well-known as this one. (15) Seldom do people go there
	because it is not as well-known as this one. However, the food is brilliant.
Randy:	If I had known there was such a good restaurant nearby, I would have gone there
