

# Measuring tape

For measuring length, width or area of a site

# Measuring tape

## Suggested activity:

- Divide the class into groups of 4–5.
- With the help of a measuring tape, draw the floor plan of your classroom at a particular scale, e.g. 1 cm to 0.5 m.

## Notes to teachers:

- Ask students to conduct this activity after learning the concept of scale.
- May ask students to do this activity by themselves after class.
